FRAMING THE PAST, PRESENT AND FUTURE OF LAND CONSERVATION LAW

Professor Federico Cheever
University of Denver Sturm College of Law
March 13, 2014
Conservation Timeline - The Past - Punctuated Equilibrium

1891 – Trustees of Public Reservations
1891 – Forest Reserves Creation Act
1895 – Establishment of National Trust (U.K.)
1897 – Forest Service Organic Act
1903 – Pelican Island Refuge
1905 – Forest Service Use Book
1906 – Antiquities Act
1908 – National Conservation Conference
1909 – First National Conference of City Planning
1909-1912 – Denver Mountain Parks
1916 – New York Zoning Ordinance
1916 - Park Service Organic Act
THE PRESENT -- DRAMATIC GROWTH IN "PRIVATE" LAND CONSERVATION
Private Land Conservation by State and Local Land Trusts

ACRES PROTECTED (MILLIONS OF ACRES)

YEAR

Total Acres Protected
Acres Under Easement
Acres Owned

LTA 2010 Census
Conservation Easement -- Simple Transaction

The Original Owner Seeks to Keep The Land in a Natural State. The Original Owner will receive market value, less than market value, a tax deduction or nothing.

DEED OF Conservation Easement

Original Owner (Retains Right of Access and Right to Exclude)

The Land Trust (Received Right to Prevent all/some Development)

The Land Trust Plans to Hold the Rights

The Conservation Easement Spells out Exactly What Rights the Owner Retains and What Rights She Conveys.

• Land trusts in Colorado have protected 1,225,050 acres — this represents a 53% increase in acres conserved since 2005. Colorado ranks third in the nation in acres conserved, and first in the Southwest.

• There are now 38 land trusts operating in Colorado, including 29 staffed groups and 5 all-volunteer groups.

• Colorado increased their full- and part-time staff and contractors 60% in 5 years, for a total of 152 paid positions in 2010.

• Land trusts in Colorado drew upon the work of 1,529 active volunteers (an increase of 21% since 2005) and the contributions of 13,456 members and financial supporters.

• As a signal of the land trust community’s commitment to excellence, there are now 13 accredited land trusts in Colorado. Together, these 13 groups have protected 948,323 acres as of 2010.
Private Conservation in the “Big League”

National Park System (Including Alaska) 1872-2013
81 Million Acres

National Forest System (Including Alaska) 1891-2013
191 Million Acres

Total Acres Conserved by All Land Trusts:
State, Local and National

- 2000:
  - 18,388,023 (77%)
  - 5,470,815 (23%)

- 2005:
  - 25,964,032 (70%)
  - 10,906,334 (30%)

- 2010:
  - 30,945,639 (56%)
  - 16,075,860 (44%)

National land trusts conserved almost twice as much land as state and local land trusts, but the percentage of total land saved by state and local land trusts grew to more than a third of total acres protected in 2010, up from less than a quarter in 2000.
THE PRESENT -- LANDSCAPE RELEVANCE OF PRIVATE LAND CONSERVATION IN THE WEST -- PATTERNS FROM VOLUNTARY TRANSACTIONS
Patching Public Lands
Buffering Riparian Areas
THE PRESENT --
POLITICAL SUPPORT
TRENDS
Co-sponsors of the Conservation Easement Incentive Act

268 Reps. from all 50 states have co-sponsored H.R. 1831 including majorities of both parties
America’s Great Outdoors: A Promise to Future Americans

President Obama launched the America’s Great Outdoors (AGO) Initiative to develop a 21st Century conservation and recreation agenda. AGO takes as its premise that lasting conservation solutions should rise from the American people – that the protection of our natural heritage is a non-partisan objective shared by all Americans.

AGO recognizes that many of the best ideas come from outside of Washington. Instead of dictating policies, this initiative turns to communities for local, grassroots conservation initiatives. Instead of growing bureaucracy, it calls for reworking inefficient policies and making the Federal Government a better partner with states, tribes, and local communities. The report below is the result of this work.

Instead of dictating policies, this initiative turns to communities for local, grassroots conservation initiatives. Instead of growing bureaucracy, it calls for reworking inefficient policies and making the federal government a better partner with states, tribes, and local communities.

http://americasgreatoutdoors.gov/
AGO listening sessions revealed a growing awareness that protecting the nation’s natural and cultural heritage requires working across land ownership . . . At listening sessions, Americans also emphasized the importance of incentive-based approaches to conservation. They noted that conservation must make economic sense to landowners. . . . One of the most frequent recommendations was to maintain the enhanced tax deduction for conservation easements.
Land Trust Scams on the Rise

By Elizabeth MacDonald / Emec’s Bottom Line / Published January 21, 2013 / FOXBusiness

The Great Recession has triggered a rising tide of real estate and tax abuse centered around land trusts that is going ignored, the Internal Revenue Service, Congress’ Joint Committee on Taxation and the Government Accountability Office have all warned.

Land trusts, in which landowners donate land to trusts in an effort to obtain billions of dollars in federal tax deductions, have allowed some property owners to wipe out all of their federal tax bill.
The Government and “Private” Land Conservation

- Federal Tax Deductions
- Direct Federal Funding (LWCF/AGO)
- State Tax Deductions and Credits
- Direct State Funding (GOCO)
- State Statutory Authorization (CE Statutes)
- “Making” the Open Space Market
- Local Tax Exemptions
- Direct Local Government Funding

The History of PILT

PILT’s Authorization and Appropriation Levels

<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Historically, PILT payments were limited to an amount appropriated by Congress. Initially authorized at $100 million, that amount was appropriated annually during the first decade of the Act. During the 1980s, there were attempts to zero out the amount in budgets, but Congress made the minimum amount available each year.</td>
<td>After the 1994 PILT reform, which tied authorization levels to the consumer price index (CPI), authorized and appropriated levels began to diverge. PILT is one of the few federal funding programs that has a “floating authorization” amount.</td>
<td>Despite increasing authorized levels after 1994, PILT was not fully funded until 2008, when it was changed from a discretionary to a mandatory program. As a result, PILT was fully funded between 2008 and 2012.</td>
<td>The Moving Ahead for Progress in the 21st Century Act (MAP-21), enacted in July 2012, included mandatory PILT funding for 2013.</td>

For Land Trusts, a Landmark Case

Dispute Over $172.87 Tax Bill May Guide How Municipalities Handle Property Held in Public Interest

By Cameron McWhirter
Feb. 4, 2014 6:35 p.m. ET

Protected Property
A legal dispute in Massachusetts could influence whether taxes can be assessed on undeveloped nonprofit lands across the country.

Virginia Gabert, a part-time administrative assistant for the tiny town of Hawley, Mass., recalls being taken aback five years ago when she received a letter from a nonprofit declining to pay its annual tax bill of $172.87.

"We were very surprised from the beginning," said Ms. Gabert, noting that the nonprofit had paid taxes on the 120 forested acres for a decade. "It's like they said, 'Hey, let's pick on a small town.'"

The nonprofit, the New England Forestry Foundation, believes it is the one being picked on. It decided to seek full tax exemption on the Hawley property as a test case on the issue after it started
Specifically, § 5, Clause Third, exempts from taxation all “personal property of a charitable organization, . . . and real estate owned by . . . and occupied by it or its officers for the purposes for which it is organized . . . .” G.L. c. 59, § 5, Clause Third.

“A charity in the legal sense, may be more fully defined as a gift, to be applied consistently with existing laws, for the benefit of an indefinite number of persons, either by bringing their minds or hearts under the influence of education or religion, by relieving their bodies from disease, suffering or constraint, by assisting them to establish themselves in life, or by erecting or maintaining public buildings or works or otherwise lessening the burdens of government.”

The subject property nonetheless did not appear to be open to the general public. The subject property lacked sufficient signage alerting the public to its availability for public usage. Information was not disseminated to the public on any wide scale; its inclusion on a very narrowly distributed Community Forest booklet and a broken link on a website did not constitute sufficient dissemination to the public of the subject property’s availability.

Moreover, the subject property was not easily accessible. It was situated at the end of a dirt road that passed between a private house and barn, and thus its entry had the appearance of being a driveway within a private property.
