NEWS & EVENTS

The 2010 Sutton Colloquium

November 6, 2010

"Drones and Their Implication for International Law"

The Nanda Center for International & Comparative Law and the International Law Society at the University of Denver Sturm College of Law present the 2010 Sutton Colloquium.

When the U. S. invaded Iraq in 2003, its total robotic arsenal included less than ten aerial drones. Now the United States has in excess of 10,000 of robotic systems including air, ground and sea-based systems. 44 countries are developing robotic capabilities in their armed forces. We are witnessing a true revolution in military affairs, but will the laws which regulate their use - the laws of armed conflict (LOAC) and international humanitarian law (IHL) - be able to keep up with these dramatic changes?

The 2010 Sutton Colloquium will address these and other questions: As technology becomes more precise, what level of civilian collateral damage is acceptable under the LOAC? Are some of the robotic systems, such as fully autonomous weapons, prohibited as an inherent violation of the LOAC? Should they be? Does a robot have a right of lethal self-defense against an attacker? What is the relationship between human rights and the LOAC when the United States is deploying drones against insurgents hiding within a civilian population?

This conference is designed for newcomers to the laws of armed conflict and international humanitarian law. It will raise some of the most provocative and headline grabbing questions of our times, as well as featuring nationally renowned experts on this cutting edge issue. Please join us for this exciting event!

Speakers and panelists will include:

- Professor Mary Ellen O'Connell from the University of Notre Dame
- Professor Jordan Paust from Houston University

after appeals which is 2% higher than the statewide average. Please [click here](#) to read the entire message.

10 New Faculty in Next 5 Years

DU Law will add 10 new tenured or tenure-track faculty members over the next 5 years. This will grow our faculty from 52 to 62. Additionally, last year, we reduced our class size from more than 350 entering students to 300 students. Please [click here](#) to read the entire message.

Admissions Report

The class entering the SCOL this fall is an excellent one. It is almost exactly on target size-wise. Indicia for bar passage and *U.S. News* rankings are excellent. And while the class is not what we had hoped in terms of overall diversity, it represents a healthier mix of diversity than last year's class and also has taught us some valuable lessons that should bolster diversity measures next year. These issues are all discussed in more detail below. Please [click here](#) to read the entire message.
