TY JOHNSON, Transportation Preloader

That not only Dean Smith, but also two other full-time faculty, teach in this first semester of the new format signals that leadership and senior faculty of the college are invested in the format of the new program."

TOD DUNCAN, Assistant Clinical Professor, Biology

My classmates are an amazing group of successful and accomplished professionals. We have Vice Presidents and COOs and PhDs in this class. I feel so lucky to be learning from them as much as our distinguished and amazing faculty."
