 - b. \$5,000 from last year
 - c. \$6,000 from lockers
 - d. additional 100 students, thereby increasing student fees collected
 - e. The finance committee would like to have ability to sponsor such things as Hockey Night, which have had not been accounted for in the budget
 - f. Even if we do have to pay LRAP, this amount would not interfere with the amount.
 - g. What are other possibilities?
 - (1) It would be up to the Senate, by majority vote
 - (2) Could use it for Barrister's Ball

- (a) To keep tickets at a reasonable price and have the event at the venue specified, then will likely need \$5,000.00
- (3) SBA is more than just funding student organizations and planning Barrister's Ball; SBA should possibly make a charitable donation with the surplus rather than just giving it to student organizations. One possibility is to fund a scholarship to make a huge impact on some individual
- h. Should be noted that these funds came from student fees and therefore should benefit Sturm College of Law or students
